

You are cordially invited to attend the

Physics Open House

Friday, November 17th, 2017

6:30 - 8:00 PM Tate Hall - Room B20

Attendees will be eligible to win a copy of *The Physics of Superheroes: Spectacular Second Edition*

6:30-7:15 PM

Lab Tours & Research Discussions

Interested in building balloon-borne telescopes to study the origins of the universe? Wondering how biology and physics work together? Are you searching for Dark Matter? Come see physics research in action!

7:15-7:30 PM

Admissions Information

7:30-8:00PM

Keynote Speaker – Professor Vuk Mandic

Come hear how to observe the ripples in the fabric of space and time from black holes colliding. The work of Professor Mandic's experiment, LIGO, the "most precise measuring tape in the world," won the Nobel Prize in Physics this year!
